

**Alex Seton**

## ***What Are We Fighting For, Exactly?***

Alex Seton is a pacifist: a person who believes that war and violence are unjustifiable in any situation. He believes that we need to find other ways to solve our differences and the sacrifices we make should be in order to facilitate cooperation rather than aggression. As a child he remembers making anti-nuclear protest signs with his family.

For this work, Alex has made his signs out of marble, rather than cardboard because he wants us to think about how words can have a powerful and lasting effect. What type of messages has he written on these signs?

► **DESIGN** your own signs with messages for a better world.
